

MARCH 2023

Greetings friends, we hope you are all doing well, by the grace of God. We send you love from all of us at Good Shepherd Foundation Uganda. I thank the Lord for my safe travels to the United States and for the wonderful families that have been hosting me around the country. Back home the school term is in progress and at the high school more than 40 students have joined Senior One. Destiny High School is doing well in its second year. Though we still have some challenges, we are strong in the Lord. Our Father School and the medical clinic are also progressing and continue to be a blessing to the community in Kagavu. We are thankful to God for the faithful men and women who have chosen to support us. Our main project this year is construction of the second floor of the high school. Please consider being part of this project and contact me for more information. God Bless You!

Patrick Kibirige

GOOD SHEPHERD
